

MISSISSAUGA

**NOTICE OF PUBLIC INFORMATION CENTRE
HAVENWOOD DRIVE
TRAFFIC CALMING**

The City of Mississauga has recently begun implementing physical traffic calming measures in order to address local neighbourhood road safety issues in Mississauga.

Through an extensive review process, roadways are identified to receive physical traffic calming measures. Havenwood Drive between Gulleden Drive and Fieldgate Drive has been selected as location which would benefit from the installation of traffic calming measures.

What is Traffic Calming?

Traffic calming consists of physical measures (speed humps, speed cushions) put in place on the road in order to reduce the speed and volume of traffic and to restore neighbourhood roadways to their intended function.

At this time, staff would like to invite you to a public information centre which will provide background information on Traffic Calming including the proposed traffic calming measures for Havenwood Drive during a short presentation. The representatives from the City will be present to answer questions and discuss the details of the proposed plan and installation of traffic calming afterwards.

Date: Thursday, January 31, 2019
Time: 6:30 p.m. to 8:30 p.m.
Location: Fleetwood Village Room - Burnhamthorpe Community Centre
1500 Gulleden Drive

We are interested in your feedback in developing a traffic calming plan for your neighbourhood. If you are unable to attend the public information centre please take the time to provide us with your written comments regarding the proposed traffic calming measures on Havenwood Drive.
