PROJECT UPDATE

Watermain installation and existing valve chamber upgrades

Burnhamthorpe Valve Chamber Compound
Project 10-1205 C5

Peel Region has been working in your area on major upgrades to the Hanlan watermains, part of Peel's most critical infrastructure.

Construction schedule

Construction is now expected to finish by the end of May, with full restoration planned for mid-2026. This work is taking place at the Burnhamthorpe site in the park north of Burnhamthorpe Road East. These dates may change due to weather and other unexpected events. All work is warranted for two years from the completion date.

Contractor working hours

The work will be completed by Clearway Construction under contract to Peel Region. Working hours are from 7 a.m. to 7 p.m., Monday to Friday. These hours are consistent with local municipal bylaws and help shorten the amount of time construction is in your area.

Construction safety

Construction zones require extra caution to keep everyone safe. Be aware of your surroundings when driving, walking, or biking near the construction area. Watch for construction crews and other road users, slow down, and consider other routes. Visit peelregion.ca/workzonesafety for more information.
