ROAD PAVING

Watermain Replacement and Improvement

Sharlyn Road, Lenworth Drive, Wharton Way and Berkel Road
Project 24-1310 F

Peel Region will be repairing the road where it was affected by our recent watermain. Thank you for your cooperation while we finish this work.

Schedule

We expect road paving activities to take place on Sharlyn Road, Lenworth Drive, Wharton Way and Berkel Road between **mid-September and mid-October**.

Working hours are from 7 a.m. to 7 p.m., Monday to Friday.

Road paving may be delayed due to weather conditions, as it cannot take place when the ground is saturated with water, or the temperature is below 3°C.

Driveway access and parking

Please do not park on the street (or leave any materials) from 7 a.m. to 7 p.m. when paving is scheduled for your street.

While your street is being paved, we may block your driveway for a short time. As paving work approaches your home, we recommend parking on another street.

We have arranged for alternate parking on Sharlyn Road, Lenworth Drive, Wharton Way and Berkel Road with the City of Mississauga until mid-October. All other parking laws remain in place, including proper clearance from hydrants and stop signs.

Traffic impacts

We may need to reduce traffic to a single lane during paving activities. Work will be phased to minimize traffic disruption. If this is needed, we will place signs giving directions.

Construction safety

Construction zones require extra caution to keep everyone safe. Be aware of your surroundings when driving, walking, or biking near the construction area. Watch for construction crews and other road users, slow down, and consider other routes. Visit peelregion.ca/workzonesafety for more information.
